# OUR COMPANY STANDS FOR QUALITY, DEDICATION TO OUR CLIENTS, UNEQUALED AFTER SALES SERVICE AND SUPPORT.

The primary role of Microfiche Technologies is to provide reliable service and cost-effective Color Printers, MFD's, Large format machines, Banking equipment Products and consumables irrespective of brand. We prides itself on for tailoring a specifically configured packages to meet each customer's own independent needs, no matter how large or small they may be. We can also provide full service on most MFD, Printer and Large format models in the market. Our company stands for quality, dedication to our clients, unequalled after-sales service and support, and we only seek to associate our company with product of an equal quality and reputation.

of a connected workplace**

**DMS/  
Enterprise Content Management**

One of the biggest challenges facing any organisation today is how to manage increasing amount of information available in variety of data types and formats. We provides a platform to move towards a less paper environment in a phased and gradual manner. It is a comprehensive document management system with multi-level security framework which lets you control user access upto document level. It focuses on the entire lifecycle of a document from Scanning to Storing to Sharing- its like your organisation's digital file cabinet
